WOOD-FIRED OVENS FOR INTERIOR AND EXTERIOR USE

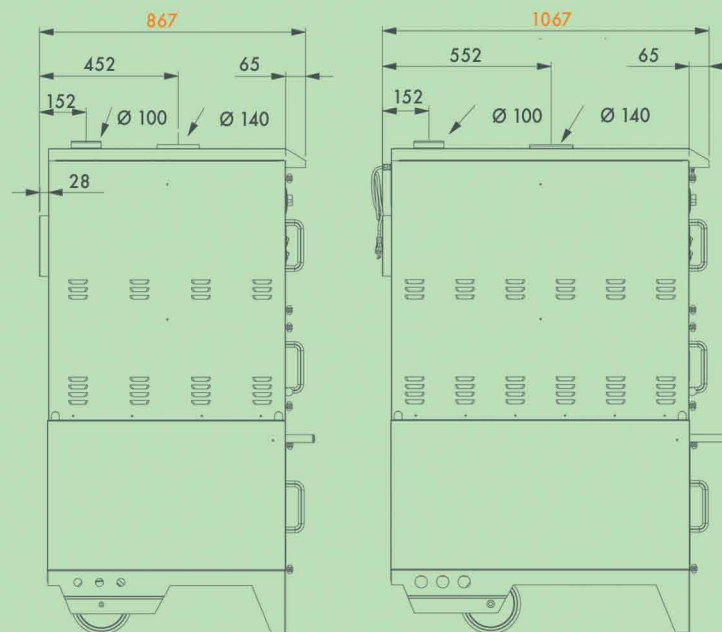

CIBUS oven for exterior use (FM FG)

Medium CIBUS oven for interior use (FM)

Large CIBUS oven for interior use (FG)

TECHNICAL SPECIFICATIONS

Max. operating temperature	450°C	FM oven weight	Kg. 180
Services power supply voltage	230V - 50Hz	FM trolley weight	Kg. 30
Two-pole plug	10A	FM oven chamber dimensions	mm465 x 640 x H350
Services electrical power	60W	FG oven weight	Kg. 200
Cooking grids	n.3 x H110	FG trolley weight	Kg. 40
Wood-fired oven	3-4 Kg/hour	FG oven chamber dimensions	mm465 x 840 x H350

COOKING CHART

FOOD	Cakes	Bread	Fish	Roasts	Square pizza	Round pizza
TEMPERATURE °C	200/250	250/300	250/300	300/350	280/320	430/450
COOKING TIME (min.)	15/30	40/60	30/40	70/110	15/20	2/3

DESIGN

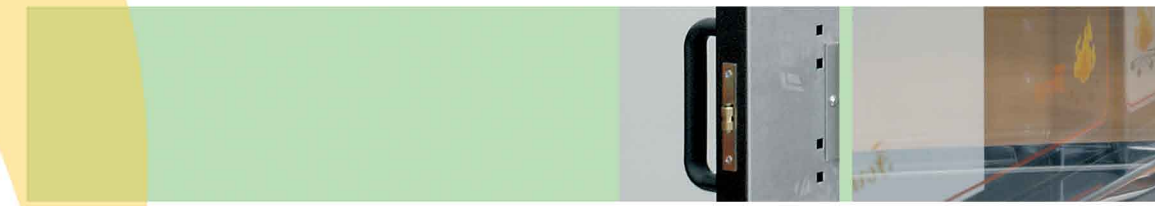

TAFER CIBUS ECOLOGICAL INDIRECT-FLAME WOOD-FIRED OVENS

- STRUCTURE:** Aluminiumized steel (resistant to heat and corrosion).
- OVEN CHAMBER:** Extractable, made in AISI 304 BA stainless steel (hygienic and easy to clean), three grids.
- FIREBRICK LEDGE:** Food-compatible for direct cooking of some foods (pizza, bread, cakes, etc).
- VENTILATED COOKING:** Does not mix smells and flavours (allowing different foods to be cooked at same time).
- COOKING TYPE:** Special heat emission system inside the oven chamber facilitates cooking of foods, enhancing flavour.

Combustion is controlled by a SMOKE VALVE and an AIR-FIRE GRILLE that suitably used control combustion speed, retaining heat and reducing wood consumption.

- HEATPROOF HANDLES:** Eliminates need for oven gloves.
- DOUBLE GLAZED:** Better heat insulation and protection against burns.

CIBUS MODELS:

- C1FG-IK Large Cibus oven for interior use with accessory kit
- C1FG-IKV Large Cibus oven for interior use with accessory kit and fireproof window
- C1FG-EK Large Cibus oven for exterior use with accessory kit
- C1FM-IK Medium Cibus oven for interior use with accessory kit
- C1FM-IKV Medium Cibus oven for interior use with accessory kit and fireproof window
- C1FM-EK Medium Cibus oven for exterior use with accessory kit

- AIR-FIRE GRILLE:** The width of holes avoids injury to fingers.

3-YEAR GUARANTEE

- DESIGN:** Special design and STAINLESS STEEL trims.
- REVERSIBLE DOORS:** Useful feature for easier installation, with right or left opening.
- COLOUR:** Standard scratchproof hammer-finished copper.
- PAINTWORK:** Electrostatic polyester powder for exteriors.
- SPARE PARTS:** All internal and external parts can be replaced, in particular those in contact with flames.

- INSULATION:** Permits installation in leisure rooms, built-in kitchens, etc.
- STEAM VALVE:** Allows the right humidity level to be maintained in the oven chamber.

OPTIONALS

- To eliminate cooking vapours
- D1FG-CVF: Smoke and vapour manifold
- C1FM-CVF: Smoke and vapour manifold

D1FG-KP: : Sucking-pig roasting tray

D1FG-CPT: Oven dish grid
